BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices; in the Jefferson series, some of the rolls in the late 50's tend to be dark - these bring lower prices; "gem, full steps" rolls, when available, bring higher prices. Original bands" rolls are worth more than listed prices - particularly the pre-1941 issues. Washington rolls - dull or "put together" - bring lower prices. Certain proof issues (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walking Liberty halves are listed in the Coin Values section.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 - Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and or weakly struck.

MS63 - Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 - Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65 - Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 - Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3B which contains Modern Commemoratives and Modern Eagles (Gold and Silver).

LONG BEACH EXPO NEXT MAJOR SHOW ON AGENDA
MOST DEALER WANT LISTS PURSUE QUALITY COINS

The Market in Depth

Dealers are looking forward to the Long Beach Expo, which begins next week (Sept. 19-22), as a gauge of the activity that one might expect for the balance of the year. Several dealers have expressed the opinion that it will be a good show and the rest of the year will continue to be fairly active. The majority of dealers remain positive as a result of recent shows and auctions. The only negative thrown into the current mix is that gold and silver bullion seem to be slightly soft. Most dealers would prefer just the opposite as Long Beach begins.

Recent reports from dealers indicate that their customers are still in the market for specific coins. Astute collectors realize that now is the time to obtain certain issues while prices are steady. However, the roadblock may well be that the coins they want are not available at the current levels. Indeed, if they are available, the potential seller may want well in advance of today's posted prices.

Over the last several months, to many dealers and discerning collectors, it has become blatantly apparent that the rare date or better quality coins will bring prices in excess of the listed Bids. If the population is low for a particular issue and competition is healthy, chances are that several dealers will be trying to fill want lists simultaneously. Thus, in order to be the ultimate buyer of these coins, you have to be willing to step out and pay more than anyone else.

Along this same line, we have recently discussed the fact that Peace Dollars are extremely hot. To this end, we would like to point out that complete sets of Peace Dollars, in MS63 and better grades, are in demand and individual pieces will sell immediately to any number of buyers at the listed Bid levels. This week's Bid for the set in MS63 is $4,355; MS64 is $9,375; and MS65 is $54,230. If you have a nice white set in MS65, you could most likely set your own price, and if not too unreasonable, it would probably "go away".

While we are conveying specific market information on Peace Dollars, this same activity extends to rare date Morgans, as well. If you examine results of recent auction activity, you will find that nice examples of rare date issues, coins with low populations, have brought multiples of listed Bids. The actual price one will pay is the component that cannot be determined on an everyday basis. Dealers Bid a specific price for coins they have not seen. Yet, at an auction where they have time to examine coins, one never knows just how much they will pay until they get in the auction room among other competitors and raise that paddle.

This Week's Market

MERCURY DIMES: If you are looking for a change in the Mercury Dime chart, you certainly will not find many. Mercs remain just as consistent as they have been for the last several months. Common dates are cheap enough that they trade at current levels and better dates trade so infrequently that buyers just simply offer "Bid" and then wait to see what will happen.

WALKING LIBERTY HALVES: There are very few changes in the Walker series Consistent Bids by the main "players" holds this chart steady.

DOLLARS: You will not see a lot of Bid changes in the Dollar charts this week as the marketmakers maintain their previous Bid levels. The strength of this market lies in the fact that there are numerous dealers who are willing to buy properly graded Dollars (especially better dates) at today's Bids, if they can locate them. In the case of the infrequently traded coins, price is not the deterrent; locating sufficient coins to satisfy current demand is the predicament.

PROOF SETS AND MINT SETS: Buyers for Proof and Mint Sets are extremely aggressive at this time. Several dealers need hundreds of specific sets and will pay the "going rate". Sometimes that means Bid, while other times they will pay Ask. This is a "hot" market.

COMMEMORATIVES: While you will not see many declines in the Silver Commem chart this week, we can inform you that most of the marketmakers in this area have lowered their buy prices substantially. If we begin to see sellers offering discounts before the high Bids return, there will likely be some declines in the short-run. We are also finding the same situation in the Gold Commems, although there seems to be a little more support there. Modern Commems are still quite active among the marketmakers; however, some of the trading ranges are declining slightly. Lower Bids and lower Asks are the cause.

TYPE: Lots of support can be found in the Type charts as we monitor activity on the teletype systems and shows. Dealer "buy lists" also help maintain today's reported Bids; most serious buyers will pay more for coins they feel have eye-appeal. They will not pay more for average coins.

GOLD: The U.S. Gold chart depicts a very stable market. There is plenty of support in nearly all Mint State grades of all denominations. In several cases, Bids have increased as buyers become more competitive. Even circulated Gold is steady to higher despite a retreating gold bullion.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. These coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for **sight seen** coins may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will list coins whose Bids are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

NUMISMATIC GUARANTY CORPORATION OF AMERICA

EMPLOYMENT OPPORTUNITY

MARKETING & PUBLIC RELATIONS DIRECTOR

Numismatic Guaranty Corporation is seeking an outgoing, take-charge individual to create and maintain a comprehensive marketing program that coordinates all of its numismatic services. This will involve the design and implementation of its advertising campaigns, as well as its promotional programs and press releases.

The requirements for this position include three or more years marketing experience within the rare coin industry and excellent writing skills. Also a must is the willingness and ability to communicate in a personable manner with dealers, the press and the public. Computer literacy and familiarity with the Internet are important assets.

This is a full-time position which will require relocating to NGC's office in New Jersey and will include some travel to coin shows. Salary and benefits will be commensurate with the applicant's skill and experience. Please submit resumes to the attention of Mark Salzberg, President. All replies will remain confidential.

NEED A SALES TOOL?

2 New CDN Graph Books to the Rescue!

Looking for new ways to sell coins in today's market? What better way, than to show your clients pricing history? Our new **Mint Type Graph Book** charts at least 100 issues that are Bid lower today than at any time in the last 15 years! On the flip side there are 28 issues in our New **Proof Type Graph Book** that are bid higher today than at any time in the last decade and a half.

All CDN Graph Books Contain:

- All time Highs and Lows
- Current CDN Bid
- Brief Background of Every Coin
- Designer, Size & Weight, Mintmark, Composition
- Photo of each Coin
- Weekly chart plots for over 15 years

Not only can you show this valuable information to your clients, you can include it in your newsletters, sales brochures, and advertisements.

LONG BEACH EXPO SHOULD BE PIVOTAL ENDEAVOR
DEALERS LOOKING FOR BRIGHT FUTURE IN NUMISMATICS

The Market in Depth

Dealer attitudes have turned around so much in the last three months that they are no longer expressing their frustrations over a haphazard market. They have been more encouraged of late and very emphatic that there is going to be a profitable future in numismatics. We have monitored a multitude of dealer transactions over the last several months and concluded that "nice" coins will sell for prices well above current Bid levels as long as the coins are not in the generic category. Although, even the generics (common dates) will still change hands if they are better-than-average.

When we mention "nice" coins, we are alluding to those examples that meet all the requirements of the potential buyer: lustre, strike, eye-appeal, and hopefully, price. However, as we have made mention of many times of late, more and more buyers are less concerned about price if the intended purchase meets all the other aforementioned requirements. This does not mean that a dealer can charge "an arm and a leg," but he can make a fair profit. At the current Bid levels, astute buyers are aware that prices for "nice" coins are about as low as they can go or have been. There seems like very little downside risk and a tremendous amount of upside potential.

Another element to consider in the search for "nice" coins, is trying to acquire the recognized rarities, the ones everybody knows as key dates. If you select the coins with the best eye-appeal (that is if you have a choice of specimens), there should always be demand at some level. Many dealers have reported that their business has improved immensely in the last three months, with the last month being the best of the year. They are quite hopeful that this will continue as long as some fresh coins come onto the marketplace.

The Long Beach Expo is a worthy place to start that search for fresh coins. With the Heritage auction and thousands of dealers in attendance, there should be lots of coins to look through in order to find the specific ones you need for your customers.

Stack's just completed an auction on September 10-11 in New York. Action was vigorous as buyers were quite competitive. The 1842O $10 Liberty, in BU, brought $26,400; an 1836 Reeded Edge Half, realized $5,500 in BU; and an 1858 Seated Dollar, in Ch. Brilliant Proof, changed hands at $5,060. Other highlights follow:

ISSUE	GRADE	PRICE			
1794 Large Cent	XF	$1,265	1895 Morgan Dollar	Brill. Prf	$14,850
1916 S.L. Quarter	Ch. AU	$4,180	1880 $1 Gold	Gem BU	$ 3,080
1815/2 Bust Half	AU	$3,300	1827 $2 ½ Gold	XF	$ 8,800
			1825/1 $5 Gold	XF	$ 8,525

This Week's Market

CENTS THRU HALVES: The BU roll market continues to be very active among the principal players in this area. Lincoln Cents and Roosevelt Dimes are getting some advanced Bidding; while other denominations are receiving offers to buy at present Bid levels.

MERCURY DIMES: The Mercury Dime chart is as consistent as it has been running for a long time. Most current activity is for the infrequently found Full-Band specimens

WALKING LIBERTY HALVES: Bids for Walkers are still as operative as they have been recently. Early specimens with mintmarks are the most sought after; these are also the least likely to be found at current levels. Most sellers are waiting for much higher Bids before they relinquish these rarities.

DOLLARS: Dense Bidding activity is the theme this week as buyers maintain their active Bids. They are presently looking for better and rare date Dollars in MS63 and higher. If the coin warrants it, they are willing to pay substantially over current levels, especially for coins that have very low populations. We are not finding discounted sellers for coins in this category.

PROOF SETS AND MINT SETS: Even though you find a few declines in the Proof Set chart this week, the majority of issues are in strong demand at present levels. In fact, even some of the issues with declines have buyers at these new levels. The rest of the unchanged issues are steady with convincing demand. Mint Sets remain stable at current Bid levels.

COMMEMORATIVES: There sure seem to be a lot more sellers than buyers for Silver Commems lately. Most of the active buyers are simply bargain-hunting at this point, while the sellers are looking for numbers right about the Ask level. If the sellers get a little anxious, prices could fall in the short-term. Bids for Gold Commems are starting to back-up also. In some cases, buyers are Bidding 10% under current levels. We have monitored just a few discounted sells to create some lower prices.

TYPE: There are very few changes in the Bid levels in the Type charts this week. Dealers are continuing to run the same Bids as they have in the past several weeks. Dealers have reported that there is a great demand for properly graded Type coins, however, the supply of same is very thin. If you come across a deal of fresh Type, you should be able to sell it quickly.

GOLD: Circulated U.S. Gold has softened slightly as bullion drifts lower. The normal buyers have lowered their prices as a result. Mint State Gold maintains its previous position as there appears to be enough demand to warrant dealers continuing with their Bids. This is an area to watch as action takes place during Long Beach Week.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally. They do not represent a retail level at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market which already include consideration of certification costs. Prices for **sight seen** "raw" coins may be higher or lower than for a **sight unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask values purchasing coins in a retail transaction, you may also commission a Dealer for your purchases

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series (spotted or otherwise) prices for [illegible] the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices. "gem full step" rolls [illegible] band" rolls are worth more than listed prices—particularly the pre-1941 cents. Washington rolls—dull or "put together" [illegible] (particularly the S-mint issues) are worth more than listed prices. MS-65 ranges may be found in the MONTHLY SUPPLEMENT. [illegible]

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3B which contains Modern Commemoratives and Modern Eagles (Gold and Silver).

ICTA CERT

WHAT IF THERE WERE NO ICTA, COULD YOU GET THIS DONE?

■ ICTA, the Long Beach Expo., PNG, and others have established a coalition to resolve California sales/use/franchise tax problems. California's tax enforcement policies directly or indirectly affect everyone in the industry.

■ California's Governor recently signed Senator Lewis' bill, SB 1550, which establishes a baseline for franchise tax nexus for attendance at shows for more than 7 days. While this is a tremendous achievement in such a short time, we must continue to press for a longer time frame which Senator Lewis is willing to introduce in the next legislative session.

■ The bill which addresses the even more critical issue of creation of sales tax nexus is moving along. Diane Piret, ICTA Industry Affairs Director, Ron Gillio and Andrea Neumann of Long Beach Expo., and Richard Schwary, PNG Vice President, have all met with key legislators. Ron, Diane, and Andrea have testified before the Board of Equalization, the California Senate Revenue & Taxation Committee, and the Senate Appropriations Committee. Each testimony has been critical toward having the bill (AB 3010-Kaloogian) move forward for consideration by the entire California legislature.

■ The project has moved at an extremely fast pace, due to the great work of the Coalition's California lobbyist, Ms. Norma Dillon. Funds raised in February, however, are gone; they have all been used to pay for lobbying and expenses directly related to the project. We knew that initial funds raised would be a good start but not enough to finish.

■ We have made excellent progress but must be able to pay the bills. Please donate what you can to help complete this important project. All monies raised are used only for this project. Funds are kept in a separate, designated account. **We know for a fact that other states (including Florida) are taking a hard look at conventions right now. Remember, California is a key state whose example other states are likely to follow.**

LONG BEACH DEALERS FIND MARKET AT IMPASSE

DOLLAR DEALERS MAINTAIN MOST ACTIVE WANT LISTS

The Market in Depth

At the just completed Long Beach Expo, we found more dealers with Dollars on their want lists than any other series. Generally, the sought after coins were better to rare-date issues in MS63 and higher grades. We did see several issues change hands at numbers well in excess of the listed Bids, thus, some issues will adjust accordingly. Yet, the biggest problem encountered at this heavily attended show was the fact that most potential sales could not be consummated. Buyers who were willing to pay above current Bids, could not rationalize the extra bucks it would take to pry the elusive coins away from the potential seller. Therefore, not as many sales could result due to this stalemate by buyers and sellers.

A second major problem was the fact that most dealers were inventory heavy and cash hungry as a result of business over the last month, especially from the ANA. They still had many of their purchases from the auctions and the prices they paid were somewhat excessive compared to wholesale Bids. Granted, these coins may be exceptional quality, but the asking prices are beyond what the buyers are willing to pay at this time.

DENOMINATION	GRADE	PRICE REALIZED
1796 Draped Bust Qtr.r	VG	$4,620
1815,5 over 2 Bust Half	MS60	$6,875
1918S Walker	MS64	$3,740
1794 Flowing Hair Dollar	Fine	$18,150
1795 Draped Bust Dollar	MS61	$15,400
1879 Trade Dollar	Pr 65	$5,500
1889CC Morgan Dollar	MS60	$6,875
1895 Morgan Dollar	Pr 53	$12,925

Superior Stamp & Coin conducted the Gilbert Steinberg Collection Sale on September 16th & 17th. Total prices realized were in excess of $2.3 million. Some of the highlights include the 1793 Chain Cent (America) which realized $88,000, and graded MS63. The 1804 Large Cent, in XF, brought $10,450; the 1855 Arrows Quarter, in Pr60, sold at $13,200; and the Wass, Molitor 1855 $20 Gold realized $15,400, in VF. Other highlights appear in the inset above:

Please contact Superior for a complete list of prices realized.

This Week's Market

MERCURY DIMES: Full-Band Mercury Dimes appeared on a number of want lists at Long Beach, yet we saw very few transactions take place. Sellers of the rare issues wanted much more than the buyers were willing to pay.

WALKING LIBERTY HALVES: Early Walkers were on several want lists, but not too many could be found. This is a seller's market and it appears that the buyers will have to Bid higher in order to attract these better issues.

DOLLARS: Rare-date Dollars are still the order of the day. If you have a rare-date issue with a low population, you are in the driver's seat. There are numerous collections being serviced and they all need rare-dates. In most cases, it is just a matter of the grade needed. The collectors who are trying to fill sets with the best available coins seem to be willing to pay just about any price to get the only specimen on the bourse floor. One dealer reported selling an 1893S Morgan, in MS64, at $100,000. There were several other instances just like this.

PROOF SETS AND MINT SETS: Proof and Mint Sets continue to appear on several want lists. The number of dealers looking for various sets is quite large. Several buyers will take anywhere from 50 to 200 sets of each date needed.

COMMEMORATIVES: While we have found support for numerous Silver Commems, we are starting to find weakness in some of the other Bids, as well as the Asks. Therefore, you will note that the number of declines is rising. Gold Commems are going the same route as the previous high buyers have disappeared and the highest Bids located today are substantially lower. Discounted sellers have noted this also and decided to move certain issues. Modern Commems are still very active among dealers who market these coins. Yet, some of the issues are lower as excess quantities are available.

TYPE: The Type market seemed to be a little stagnant at the Long Beach Show. However, this was not due to a lack of interest. It seemed that buyers and sellers had a difficult time getting together on price more than anything else. Buyers were trying to hold the line on their normal Bids, while the potential sellers were holding out for higher prices. Not that there was an overabundance of nice material, but it appeared that both buyer and seller were willing to hold out and let potential sales pass.

GOLD: Despite lower bullion, Mint State U.S. Gold is fairly stable at present Bid levels. We have monitored several transactions at the listed Bids. We found many marketmakers, at Long Beach, trading coins at very tight spreads. However, we did not see much in the way of discounting in order to force sales.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally. They do not necessarily reflect the exact price at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market, which already include consideration of certification costs. Bids in the **sight seen** market may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be guided by Buyers who are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above the Ask price when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3A which contains BU and Proof Rolls

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XXXIV No. 40 October 4, 1996 *. . .a Friday morning report on the Coin Market*

"EYE-APPEAL" TYPE COINS ON MANY WANT LISTS
PROOF SETS ENJOY ACTIVE DEALER MARKET

The Market in Depth

As a result of recent auctions, apparently several dealers are in the market for so-called Type coin rarities. In the recent past, we have monitored very little active Bidding for these rarities as interested dealers realize that posting Bids is fruitless in such cases. The only times these rarities are obtainable are in auctions where the high buyers try to outbid each other for the right to add another rare coin to their customer's collection. At the point where the final Bid is recognized, the value of that particular coin is determined. In such cases, we may adjust our Bid price if it is determined that the coin is accurately graded and not intended to be an upgrade.

Many dealers are also looking for Type coins that have a little extra appeal; either eye-appeal or a little bit of a better date. This increases the likelihood of being able to sell the coin in a more timely fashion. Since ANA, this has been the trend. Dealers in possession of coins with these qualities have done much better than those dealers who only have common coins to sell. The only recent drawback has been that many dealers were selling these types of coins so effortlessly that they may have gotten a little too aggressive in their asking prices the last two weeks and the unabated demand has slowed temporarily.

Proof and Mint Sets have been extremely active over the last couple of months. Buyers are looking for large quantities of the issues they need; in many cases, Bids have increased substantially. When we monitor discounted offers to sell "lots," the quantities are usually limited and the issues offered may not be the exact ones in demand. We present a list of the issues that have increased the most since the first of the year.

This Week's Market

CENTS THRU HALVES: The BU roll market has picked up considerably over the last couple of weeks. There are several buyers of various rolls who are willing to take a multitude of issues within each denomination. While you will find some discounting occurring (mostly from 1973 to 1978), most aggressive buyers will pay at least the Bid levels.

MERCURY DIMES: Mercury Dime Bids are somewhat horizontal, but this by no means is an indication of weakness. The same buyers are looking for specific issues and they will pay the posted Bids, especially for the Full-Band issues.

WALKING LIBERTY HALVES: There are several changes in the Walker chart this week as buyers and sellers try to balance their inventories. Numerous early issues are higher due to more aggressive Bidding, while some of the common late-date issues are lower as demand diminishes.

DOLLARS: While the Dollar chart may appear to have enough minus signs to make the Dollar market appear soft, this is definitely not the case. The declines are the result of common issues retreating just slightly (MS63 & MS65 Morgans). The rest of the chart is very active at present Bid levels. The better date Dollars and rare dates are receiving very intense Bidding from several dealers who need the low-pop coins for their customers. Peace Dollars in MS63 and higher grades continue to evoke competitive Bidding from several sources.

PROOF SETS AND MINT SETS: These two charts remain very active as buyers pursue almost every date (both Mint and Proof). There are occasional sellers at discounted prices, but the quantities are usually limited. Most buyers are still looking for large quantities of needed issues.

COMMEMORATIVES: We are beginning to see serious weakness in Bidding activity for MS66 Silver Commemoratives. The former high buyers have either departed this market or lowered their Bids as much as 30%. Gold Commems are in the same state at this time. Bargain-hunting is the order of the week.

TYPE: The Type market is forging ahead in some areas as buyers try to fill specific needs. Many of the increases are for issues that are rarely encountered and the potential buyers are well aware of this fact. These specialists are not afraid of finding an overabundance of coins and running out of money. They are serious buyers and are not interested in wasting time with bargain-hunting Bids.

GOLD: The U.S. Gold chart is definitely showing weakness this week. The downturn was held off for several weeks as dealers tried to support the Mint State issues, but the inevitable minus signs have crept into the chart. Gold bullion is down to the $377.50 point and several circulated issues are lower as a result. Many dealers have lowered all their Bids as they wait to see what takes place over the next few weeks.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and [illegible] sight seen or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen [illegible] at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market which already includes [illegible] may be higher or lower than for a **sight unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the [illegible] are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions. [illegible] purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth [illegible] the Jefferson series, some of the rolls in the late 50's tend to be dark; these bring lower prices. "gem full steps" rolls, which [illegible] bands, rolls are worth more than listed prices, particularly the pre-1941 issues. Washington rolls, dull or put together, [illegible] (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker [illegible] are in the CDN.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3B which contains [illegible] Modern Commemoratives and Modern Eagles (Gold and Silver).

Cash May Be King...
But *Knowledge* Is Power!

THE INSIDER'S ADVANTAGE...

"*Inside Strategies for the Rare Coin and Fine Collectibles Market*"

The most effective means by which to acquire "Cash", is through the Power of Knowledge! Silvano Di Genova is living testimony to that fact. For the past eighteen years he has used this power to build one of the *strongest and most successful* rare coin firms in the nation.

He makes his money in the rare coin business every day by trading coins with the most experienced dealers in the business. In other words, *he swims with the sharks*. And invariably, *he wins*... because of his superior gift of the power of knowledge!

I know, talk is cheap, so here are the facts:

- **At the New Carlton/Maryland coin show in February 1980, when the coin market was "smoking" hot, he sold off his entire inventory!** Just two short months later, the coin market *crashed!*
- **In the early winter of '86, he "shorted" 1,000 MS64 Morgan dollars to one of the country's most influential dealers, at $300 each!** At the time, wholesale bid was $260 per coin, and everybody wanted to buy them. By the time he had to deliver them, the market had dropped, and he was able to purchase them for just ***$175*** each!
- **In October 1988, he purchased the famous "Clifford-Kagin" Territorial gold collection for $2.3 million!** The general consensus among coin dealers was, that he paid too much. Just six-months later, he resold the collection for ***$3.1 million*****!**
- **In April 1989, he sold his entire inventory to Kidder-Peabody's American Rare Coin Fund!** That was the same time that virtually *every other coin dealer* was caught up in the Wall Street mania, and couldn't wait to sell the public on the virtues of an investment in rare coins. Little more than a month later ... the coin market *crashed*!

Coincidence, or just a lucky guess? Absolutely Not! *These incredible examples of Mr. DiGenova's uncanny market timing, are a direct result of the awesome power of his knowledge*, and he is willing to share it with you each month through the pages of the most insightful rare coin and tangible asset newsletter on the market today!

Put *The Power Of Knowledge* To Work For You, *Today*!

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XXXIV No. 41 October 11, 1996 *. . .a Friday morning report on the Coin Market*

AUCTIONS CONTINUE TO HIGHLIGHT RARITIES

BYRON REED COLLECTION TO CROSS AUCTION BLOCK

The Market in Depth

Numismatic purists must be elated over the current nature of the way coins are trading. Sight-seen is the way coins were meant to be traded and sight-seen is the way they are being traded today. While sight-unseen Bids are a very good protection mechanism for evaluating coins on a quick-turn basis, it is by no means the way true numismatists value the coins they have searched long and hard for, negotiated and purchased, and then placed into their collections. Certification also protects the surface of the coin from damage by mishandling. Although many purists would rather touch the coin, they realize that this is almost impossible in this day and age.

Spink America is conducting a major sale on October 8th & 9th in New York. This is the Byron Reed Collection of Important American Coins and Manuscripts. There are over 400 lots of U.S. coins. There are so many rarities and multi-thousand dollar coins that the potential buyers will have to bring a loaded Brink's truck if they have any measure of success. There are far too many highlights to do them justice, but we will list some of them. Also, please contact Spink America for a catalogue and prices realized.

SPINK AMERICA DENOMINATION	GRADE
1797 Draped Bust Half	Ch.-Gem Unc.
1875 $1 Gold	Ch. Proof
1796 Cap Bust $2 ½ Gold	Ch. Unc.
1808 Cap Bust $2 ½ Gold	Ch. XF
1863 $2 ½ Gold	Ch. Proof
1864 $2 ½ Gold	Ch. Unc.
1879 $4 Stella	Ch. Proof

Speaking of auctions, Bowers and Merena just completed the Gary L. Burhop and Mel W. Davis Sale, in New York. Prices realized nearly hit the $2 million mark. There were plenty of noteworthy rarities changing hands so it would be advisable to contact Bowers and Merena, Inc., for a complete list of prices realized. Here are some of the more important highlights:

BOWERS & MERENA DENOMINATION	GRADE	PRICE REALIZED
1856 Flying Eagle	Pr 62	$6,050
1877 Indian Cent	MS64 RB	$7,700
1922 No D Lincoln Cent	MS60 B	$9,350
1916D Mercury Dime	MS63 FB	$10,450
1918/7S S.L. Quarter	MS62	$15,400
1797 Draped Bust Half	Fine	$15,950
1870 Seated Dollar	MS64	$11,550
1885 $1 Gold	Pr 65	$6,820

This Week's Market

MERCURY DIMES: This series is about as steady as they come. Buyers still want to pay current levels for the Full-Band issues that they need. Sellers still want way over the Ask prices for the rarer issues.

WALKING LIBERTY HALVES: The early Walker issues remain on several dealers want lists. The 1928S, in MS65, has jumped considerably over the last several weeks. It is now Bid at $5,000.

DOLLARS: Better and rare date Dollars seem to be the strength of the overall market. Not that other areas aren't trading, but Dollars appear to be leading the onslaught for better coins. The more collectors there are for a particular series, the stronger the competition surges for the infrequently traded issues. The coins with the lower populations are extremely difficult to locate at present Bid levels.

PROOF SETS AND MINT SETS: There is very little change in the overall condition of these two charts. You may see some slight adjustments to a few particular issues, but the strength of these areas continues as buyers look for most dates in quantity.

COMMEMORATIVES: There seems to be a little more Bidding activity at current levels in the Silver Commem chart. However, the changes that we monitored this week still created some declines. The MS66 column continues to suffer from discounted sells and a disappearance of the previous high Bidders. Gold Commems are under the same kind of selling pressure and as a result, minus signs are present. Modern Commems remain a very busy area, yet much of the activity is at lower levels. Activity is limited to but a few major marketmakers who support this area on a consistent basis.

TYPE: Nice looking Type coins, whether they are circulated or Mint State (Proof), remain on many want lists. Buyers are seeking problem-free issues; if they happen to be slightly better dates, then all the more reason to buy them. As a result of the many important auctions this year, it is rather obvious that many dealers are seeking the important rarities for their clients. In many cases, when various coins are offered for sale at auction, there may not be another one in the same grade available for some time.

GOLD: The Mint State Gold chart depicts a mixed, yet healthy market. The majority of issues are steady with buyers at current levels. However, there are several declines in the MS64 and lower grades. On a brighter note, we have increases in the MS65 column. Circulated U.S. Gold is still showing some weakness at present Bid levels.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the prices at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market which already include consideration of certification costs. Bids for a **sight seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by them. Asks are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask prices when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3A which contains BU and Proof Rolls

BYRON REED COLLECTION ATTRACTS WIDESPREAD INTEREST
MARKET MANAGES TO ABSORB MORE RARITIES

The Market in Depth

Just when you think the coin market has seen all the rarities that it can handle in just one year's time, along come a few more "little gems"; and, yes, the coin market absorbed these coins also. Rather expensively, at that. The Byron Reed Collection, offered by Spink America in New York, (October 8th & 9th), shook the foundation of rare coin prices. Like the Eliasberg Sale earlier this year (Bowers and Merena), the Byron Reed Gold coins brought prices well in excess of pre-sale estimates. There were so many rarities in this sale that one might have thought that the potential buyers would run out of money by the end of the sale. Lo and behold, they didn't and the prices sky-rocketed throughout the two very intense sessions.

The average price of the lots in the first night session was in excess of $25,000, and the majority of these issues were Gold coins. That is an extremely enormous average to maintain for 174 lots. Yet, the bidding competition was very intense and the prices realized obviously speaks volumes in regard to the overall quality of the coins. The 1797 Draped Bust Half, in Choice to Gem condition, changed hands at $176,000. It seemed as if each lot brought additional excitement. The 1796 $2 ½ Gold with Stars was graded Choice Uncirculated, and realized $231,000; this was against a pre-sale estimate of $50,000-$70,000. Please contact Spink America for a complete list of prices realized. Other highlights follow:

DENOMINATION	GRADE	PRICE REALIZED

This Week's Market

CENTS THRU HALVES: The BU rolls chart depicts a very interesting market. There are numerous dealers who need all sorts of issues and are willing to pay the going rate for these specific rolls. The various issues needed are large in number. However, there are also numerous Proof-only rolls that are being offered at discounted prices, thus causing minus signs to appear. Then there are the rolls that are being offered at discounts when there are buyers at "full" Bid. Go figure!

MERCURY DIMES: Just a couple of changes appear in the Mercury Dime chart this week. Most buyers maintain their Bids, but sellers are nearly always way over the Ask levels, especially if they have something of a rare nature.

WALKING LIBERTY HALVES: The Walker chart is mixed; early issues are very strong at present Bid levels, while some of the later dates (1941-47) are somewhat soft. Prices depend on the individual buyer and how "picky" he may be.

DOLLARS: With the exception of the weakness of common date Morgans in MS63, the balance of this market is very healthy. There are lots of buyers who are ready and willing to pay the current Bids for numerous dates in specific grades. Even the circulated grades are popular with dealers who sell collector coins to their customers. Peace Dollars remain high on several want lists.

PROOF SETS AND MINT SETS: While you will find some specific declines in Proof and Mint Sets, the overall picture is quite active at present levels. When we do find sellers of certain issues at below Bids, most of the time there are buyers for the very same issues at our posted Bids.

COMMEMORATIVES: We continue to see weakness in Bidding activity for MS66 Silver Commems. As of this writing, we do not see any major sell-off of material at discounted levels. In grades below MS66, there is a substantial amount of activity at current levels. Gold Commems are mixed, although the majority of issues are steady at today's Bids.

TYPE: You may not be able to tell by the number of changes in the Type charts, but this is a very active area at this time. There is very little discounting taking place unless the individual coin has a particular problem. On the other side, problem-free coins are quick sellers.

GOLD: While the price of Gold bullion seems to be more stable of late (the last two weeks), it appears that there are more sellers than buyers over this same period. The chart below indicates several declines in both circulated issues and Mint State. However, the amount of the decline is very slight in most cases. Many dealers have voiced the opinion that they are willing to wait and see which way the next move will be.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight seen**. These prices may be compared to "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not represent what any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market which already include consideration of certification costs. Bids for **sight seen** coins may be higher or lower than for a **sight unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by those values are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above these values purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter.*

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series (spotted or otherwise) toning can vary greatly, from the Jefferson series, some of the rolls in the late 50s tend to be dark – these bring lower prices. Semi full steps, full steps, bands, rolls are worth more than listed prices – particularly the pre-1941 issues. Washington rolls, dark or partially toned, bring lower prices. Gem full step rolls, particularly the S-mint issues, are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Many

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3B which contains Modern Commemoratives and Modern Eagles (Gold and Silver).

Sight-Seen wholesale prices for accurately graded U.S. Coins – Certified or Raw

Single copy price $4.00 Vol. XXXIV No. 43 October 25, 1996 *. . .a Friday morning report on the Coin Market*

SIGHT-SEEN BIDS EXPAND SPREAD OVER SIGHT-UNSEEN AUCTIONS CONTINUE TO ASSIST MOVEMENT OF COINS

The Market in Depth

We are beginning to see a larger separation of prices between sight-seen and sight-unseen Bids from dealers. While dealers are using the sight-unseen pricing mechanism for commonly traded coins with very high populations, the not-so-common issues receive substantially more Bids on a sight-seen basis. It is not uncommon to see a difference of 100% on more expensive coins. Dealers are not willing to risk their money on coins that may not meet the specific grading criteria of their customers. Therefore, they may Bid $1,500 sight-unseen for a low-pop coin (this will probably be in the range of several other buyers, also sight-unseen), and as much as $3,000 for a sight-seen coin that offers the option of a return privilege. Dealers are well aware of how much they can pay for coins they like, but everyone is skittish about buying coins they do not get the opportunity to see before they commit their funds.

Stack's presented their latest auction on October 16th & 17th. They reported very gratifying results. The 1793 Chain Ameri. Cent brought $15,400, in Extra Fine condition; an 1805 Bust Dime with Five Berries, in Ch. BU, realized $9,900; and the 1797 Draped Bust Half Dollar, in Ch. BU knocked down a dazzling $176,000. Another important rarity is the 1933 $10 Indian; it brought $90,750 in BU. Other highlights follow:

DENOMINATION	GRADE	PRICE REALIZED
1793 Half Cent	VF	$4,290
1864 3¢ Silver	Proof 66	$4,400
1795 Half Dime	Ch. BU	$4,675
1854 Arrows Half Dime	Proof 63	$4,675
1878 Twenty-Cents	Gem Proof	$4,620
1839 No Drapery Half	Brill. Proof	$26,400
1853 Arrows & Rays Half	Gem BU	$26,400
1797 Bust Dollar	Ch. AU	$5,500
1896S Morgan Dollar	Gem BU	$5,500
1910 $2 ½ Indian	Gem Proof	$9,350
1873 $3 Gold Cl. 3	BU	$12,100

The next important auction will be conducted in conjunction with the Baltimore Coin Show, November 14-17. The Andrew S. Alexander Collection will be called by Auctions by Bowers and Merena, Inc. This 1400+ lot sale contains many rarities and "fresh" coins that seem to be on many want lists. Bowers and Merena, is expecting a large turnout with the help of this rapidly developing coin show.

This Week's Market

MERCURY DIMES: While the Mercury Dime chart is mostly steady in MS64 and higher (especially Full-Band issues), we are seeing some minor declines in MS63 with a sprinkling in MS64. The declines are a result of discounted sales with no current support at previous levels.

WALKING LIBERTY HALVES: Buyers continue their onslaught for early Walkers, the prices they advertise to pay are at the posted Bids However, most astute buyers realize that they will probably have to pay even higher prices when certain issues become available. The common late-date issues are not real stable in MS65.

DOLLARS: This may sound like an "old record", but the Dollar market continues to receive lots of support at current levels. There is any number of dealers searching for most dates that are considered better than common; this in almost any quality of Mint State. Even the circulated grades are getting their fair share of Bidding activity

PROOF SETS AND MINT SETS: You will see a few extra declines in the Proof Set chart this week, but the amount of activity has not waned. There are still lots of buyers for the majority of Proof Set issues and the same goes for Mint Sets. Many of the declines are a result of discounted sellers offering sets to buyers who are willing to pay just under previous Bids.

COMMEMORATIVES: MS66 Silver Commems are still finding lower Bidders and some discounted sellers. You may not see a lot of declines in this grade, but interest in buying is sure not rising. The majority of grades below MS66 are steady with most buyers willing to pay current Bids. Gold Commems (MS63-66) are also suffering from lower sell prices as Bids retreat. The changes in the Modern Commem chart are mixed, but the overall market is quite busy. The specialists in this area are very active at today's levels

TYPE: The three Type charts on Pages 9 & 10, may not be covered with plus signs, but the Bidding activity we see in the market is very satisfying. We are monitoring active buys from a multitude of dealers across the country and they need a majority of all the Type coins listed. Even better is the fact that they are willing to pay the present Bids for coins on their want lists. It is just a matter of matching the buyers with the potential sellers at the same location.

GOLD: The U.S. Gold chart continues to depict slightly weaker Bid prices. This is a result of lower Bids by the major marketmakers and some discounted selling occurring in the overall market. Without a major increase in retail sales, the balance of the year could be lacklustre. Without some positive kind of a move in Gold bullion, the likelihood that retail sales will increase is rather remote.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight-seen** The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally they do not necessarily represent the level at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions you should expect to pay a premium over Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3A which contains BU and Proof Rolls.

$100,000 EVERY 4 HOURS & 45 MINUTES!

THAT'S HOW MUCH MONEY THE *KING OF CASH* SPENT IN 1995! DID *YOU* GET YOUR SHARE?

Spectrum Numismatics International, the buyers of the 1913 Liberty Nickel and the King of Siam Proof Set, spent $42,347,978 purchasing rare coins in 1995.

As you can see, Spectrum has a huge appetite for rare coins. There were 251 working days in 1995. If you figure a work day at 8 hours, that means, Spectrum spent $100,000 every 4 hours and 45 minutes! Spectrum needs to buy *your* coins and is willing to pay *absolute top dollar.*

IF YOU WANT TO GET THE MOST MONEY FOR YOUR COINS... GO DIRECTLY TO THE SOURCE.

The amazing thing about the $42,347,978 worth of rare coins that Spectrum purchased in 1995, is that only $1,693,919 were purchased directly from the public. If you want to sell coins to the *ultimate buyer*, if you want to get as much money as possible for your coins, then shouldn't you go directly to the source? Shouldn't you go directly to the ***King of Cash?***

WHAT KIND OF COINS CAN YOU SELL TO THE KING OF CASH?

Spectrum paid $962,500 for the 1913 Liberty Nickel. And they paid $1,815,000 for the King of Siam Proof Set. But the facts are that 91% of Spectrum's purchases are for coins less than $5,000. And 18% of Spectrum's purchases are for coins less than $200.

While Spectrum is the nation's top dollar buyer of ultra rare United States coins, Spectrum is also the major buyer for moderately priced United States numismatic coins. Here's a short list of some of the items that ***King of Cash*** is currently interested in buying: Original BU bags of Morgan/Peace dollars, BU rolls of Walking Liberty 50C and Mercury dimes, ALL BU gold coins, pre-1916 Type coins in all grades, pre-1943 Proof coins and sets, and especially **COMPLETE COLLECTIONS!**

HOW TO CASH IN

If you've decided that you want to trade all or some of your coins for cash, you should know that it's really easy to do business with Spectrum. If you have rare coins for sale and you want to sell them for as much money as possible, then all you have to do is pick up the phone any weekday between 9:00 am and 5:00 pm California time and call the Spectrum cash line 714-955-1250 *collect.* Ask for Greg or Thad and tell them you have coins for sale. **TELL THEM YOU WANT TO TALK TO THE *KING OF CASH*.**

MIXED MARKET MAINTAINS STATUS QUO

ACTIVE DEALERS KEEP ACTIVE BUSINESSES BUSY

The Market in Depth

Nowadays, it seems as if the condition of the coin market is based wholly on the dealer with whom you are querying. If he is one of the dealers who is involved in the mainstream of numismatics, maintains a large inventory, and has ample cash reserves, chances are he will tell you that the market is quite good. He is cognizant of customer want lists and pursues these needs at great lengths. He is also an active seller and tries to turn inventory as often as possible. "Stagnant inventory costs money," he says. Non-selling merchandise needs to be moved quickly, even if it is at a slight loss. This frees up capital for new purchases.

Common coins that appear on other dealer want lists need to be moved quickly also, at a slight profit, again freeing up capital. Better date, or rare issues will typically command wider buy/sell spreads. The possibility of higher profits exists because these coins are usually not available from every dealer. These coins may rest in inventory a little longer, waiting for the larger profit. Sometimes it takes a little patience while you wait for the "right" buyer to come along.

It is not just the high-profile dealers or companies that have the potential to do well in this type of market. Any dealer who maintains a decent level of inventory with a variety of collector coins and actively tries to satisfy want lists should also do well even if his volume is not comparable to the larger companies. If, on the other hand, a dealer has little inventory, no cash reserves, and does not actively pursue business, this is a very difficult market in which to profit.

Last week we reported that Bowers and Merena will be conducting a sale in conjunction with the Baltimore Coin Show on November 14th & 16th. Contained within is a nice selection of U.S. Gold, better Type coins, and Silver Dollars. We have listed just a few of the potential highlights of this sale: (see inset above).

This Week's Market

CENTS THRU HALVES: The need for modern BU roll material continues as buyers seek various issues for their retail sales. Some dealers are looking for average quality for "sets", while other dealers are looking for some high grade specimens in the rolls they purchase. BU rolls of Franklin Halves are fairly active of late.

MERCURY DIMES: Marketmakers for Mercury Dimes remain consistent in their pursuit for the elusive issues. They continue to Bid for FB coins in MS64 and higher. For the most part, their luck in locating more coins has not improved.

WALKING LIBERTY HALVES: The commentary for this series is about as boring as it gets. The early issues remain on many want lists and few coins trade hands unless the buyer is willing to pay in excess of listed Bids. The later issues are suffering from excess supplies and few buyers at present levels.

DOLLARS: The Dollar market is the most active series among dealers today. Nearly every dealer has specific needs for their customers; whether they are looking for circulated coins or Mint State. We monitor dealer buy lists for almost every date in grades from Good, all the way to MS67. And if a higher grade coin becomes available, there will be any number of buyers wanting to purchase it. The only issues that seem to be a little weak are the common dates in MS63, 64, & 65. However, if you offer to sell any of these coins at just a slight discount, you will probably be able to sell them very quickly.

PROOF SETS AND MINT SETS: While we are still seeing a lot of activity in these two charts, there seems to be an almost equal amount of increases and decreases. The Bid buyers maintain their large quantity needs and usually offer to pay over previous levels when they need even larger quantities. The discounted sellers generally have smaller quantities of mixed lots to sell.

COMMEMORATIVES: Very few changes can be found in the Silver Commem chart this week. However, most of the changes are in the MS66 column as more discounts are monitored. Previous high Bidders have all but disappeared. The only reason current levels are maintained, is that sellers are not very eager to sell their nicer quality coins at discounted prices. A few lower Bids are reported in the Gold chart as discounts prevail.

TYPE: Type remains very stable at current levels. There is support for most issues at reported Bids, with several issues advancing where dealers need coins immediately. The few declines are a result of lower sells as dealers try to reduce inventory and create sales.

GOLD: The U.S. Gold market is still suffering from discounted sales. The majority of activity we monitored over the last week to ten days, has been for offers to sell coins at previous levels or lower. The marketmakers we have been monitoring the last week have been offering lower buys than their previous markets. The longer prices drift lower, the more difficult it is to sell quantities of coins.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer Newsletter*.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise impaired rolls are valued less than listed prices; rolls with original bands, in the Jefferson series, some of the rolls in the late 40's tend to be dark — these bring lower prices. Semi-full step rolls cover an extremely large segment of issues in the Jefferson series, and full step rolls cover an extremely large segment of issues in the Jefferson series, and full step rolls cover an extremely large segment of issues in the Jefferson series, and

COMPETITION HEALTHY FOR LOW-POP ISSUES
PROOF AND MINT SETS MAINTAIN LIVELY MARKETS

The Market in Depth

Recently, we have alluded to the fact that various collector sets, in high grades, are quite difficult to assemble. The populations of specific coins within the sets can be so minute that the potential buyers may have to ease their sights toward slightly lesser grades. The potential sellers of such rarities are definitely in the driver's seat. An in-depth look into high grade Peace Dollars agonizingly reveals that only three collectors could own a 1927D, in MS66 (PCGS has graded 2; NGC has graded 1, according to the latest Pop Reports). So if your customer had set his sights on a set of Peace Dollars in MS66, he must be willing to pay far and above what anyone else would pay, or settle for an MS65 for this particular date. In MS65, there is a total of eight-three coins graded, assuming that none has been regraded, upgraded, or downgraded.

Sets like this can be a challenge to assemble. If your customer has the wherewithal to accept this challenge, it can be an exciting ride. We have assembled a short list of some of the rarer Peace Dollars according to populations. Of course, we could have listed the no-pop issues, but that defeats our purpose. By comparing these numbers, you can determine the maximum number of sets that could be put together if the other issues also had at least these many. Most of them don't! This is also the best way to tell why most collectors eventually modify the grades within their sets as they near completion. If it isn't for the low-pop and availability, the high cost would certainly make some of them change the grades they are trying to acquire. Most of these issues have sizable populations in the next lower grade (20-50). This is where most high grade collectors eventually find themselves because the search is so difficult.

Date	Grade	Pop
1926D	MS67	8
1927S	MS66	3
1928	MS66	3
1934	MS66	16
1934S	MS66	13

Heritage Numismatic Auctions, Inc., just completed one of their Bullet Sales, this one in Dallas, in conjunction with the Annual Silver Dollar Convention. There were numerous delightful rarities that produced some very competitive Bidding and lofty prices. Some highlights follow:

DENOMINATION	GRADE	PRICE REALIZED
1914S Buff. Nickel	MS68	$11,000
1865 Half Dime	Pr 66	$2,145
1917D Rev. Walker	MS64	$3,300
1855 Seated Dollar	Pr65	$27,500
1883S Morgan Dollar	MS64	$4,915
1871CC $20 Liberty	XF	$3,465

This Week's Market

MERCURY DIMES: If you look at the Mercury Dime chart, you will see that there are numerous increases in the Full-Band columns of MS64 & 65. One very active buyer has increased his prices well above the previous high buyers. Previously, most buyers maintained their Bids at the then posted Bids.

WALKING LIBERTY HALVES: Walker enthusiasts remain just that: Enthusiastic about locating the particular coins they need for their sets. The main problem buyers are having at this time is that sellers know where to sell coins for the most money. So, if you are not willing to pay a strong price for the more difficult issues, you are likely to be left out in the cold.

DOLLARS: The market here has not changed much. Common Mint State issues are still somewhat weak; although, the spreads between grades are becoming so thin that it is hard to imagine some of them falling much farther. On the other end, the better dates are still being sought by any number of dealers. If you add up all the collectors that are looking for specific better dates, you realize that not every one of them can have their needs satisfied. Therefore, the higher buyers will get the available limited supply and the conservative collectors will just have to wait.

PROOF SETS AND MINT SETS: As we have pointed out many times over the past several months, Proof and Mint Sets are very eagerly traded by those dealers with active want lists. It appears that the potential for thousands of sets changing hands is there if sufficient supplies can be located.

COMMEMORATIVES: While the Silver Commem chart continues to display lower levels in the MS66 column, we are beginning to see solid support for many other grades. Most serious buyers of MS60 thru MS65 coins will pay within 5%-10% of the listed Bids. Gold Commems are not quite as stable as discounts are monitored for some specific issues on a weekly basis. Modern Commems are very active; whether you are a buyer or seller, you should be able to find someone willing to take your action.

TYPE: The Type charts do not evidence the amount of Bidding activity that we see taking place each week. There is a multitude of buyers with long want lists to fill. Most buyers are apt to pay the current levels or just a little more for coins they especially like.

GOLD: The U.S. Gold market continues to slip just slightly. It is not a matter of how much various issues drop each week, it is more significant that they fall at all. We have seen very few dealers who are interested in supporting current levels. Thus, the sellers lower their prices trying to find at what level the buyers will step up to the plate. Of course, most dealers are waiting to see what happens in the election before they make any major commitments.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily represent levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Bids which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example; shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems), will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror fields on both sides.

***Please Note:** This page alternates weekly with Page 3A which contains BU and Proof Rolls.

Improved NGC services mean savings for you!

Numismatic Guaranty Corporation has renamed three of its popular services, but that's not all. CERTIFIED PREGRADE has become CROSSOVER, and this service is now free! You pay only for the submission Tier. RESUBMISSION EVALUATION has been simplified to REGRADE, and coins may now be submitted for this service under any Tier, saving you time. UNCERTIFIED PREGRADE is now called PRESCREEN, and it's free for submissions of 300 or more coins of the same denomination and type.

Knowledge Is Power!

THE INSIDER'S ADVANTAGE...

"*Inside Strategies for the Rare Coin and Fine Collectibles Market*"

For the past eighteen years Silvano DiGenova has used his knowledge to build one of the *strongest and most successful* rare coin firms in the nation. He makes his money in the rare coin business every day by trading coins with the most experienced dealers in the business. In other words, *he swims with the sharks*. And invariably, *he wins*... because of his superior gift of the power of knowledge!

I know, talk is cheap, so here are the facts:

- **At the New Carlton/Maryland coin show in February 1980, when the coin market was "smoking" hot, he sold off his entire inventory!** Just two short months later, the coin market *crashed!*

- **In the early winter of '86, he "shorted" 1,000 MS64 Morgan dollars to one of the country's most influential dealers, at $300 each!** At the time, wholesale bid was $260 per coin, and everybody wanted to buy them. By the time he had to deliver them, the market had dropped, and he was able to purchase them for just ***$175*** each!

- **In October 1988, he purchased the famous "Clifford-Kagin" Territorial gold collection for $2.3 million!** The general consensus among coin dealers was, that he paid too much. Just six-months later, he resold the collection for ***$3.1 million*!**

- **In April 1989, he sold his entire inventory to Kidder-Peabody's American Rare Coin Fund!** That was the same time that virtually *every other coin dealer* was caught up in the Wall Street mania, and couldn't wait to sell the public on the virtues of an investment in rare coins. Little more than a month later ... the coin market *crashed*!

Coincidence, or just a lucky guess? Absolutely Not! *These incredible examples of Mr. DiGenova's uncanny market timing, are a direct result of the awesome power of his knowledge*, and he is willing to share it with you each month through the pages of the most insightful rare coin and tangible asset newsletter on the market today!

HOLIDAY RETAILING BEGINS TO EFFECT SEASONAL SALES
COIN SHOPS LOOK FORWARD TO THIS TIME OF YEAR

The Market in Depth

We are beginning to see many dealers stock their stores for the upcoming holiday season. This is the time of year when dealers who do "wholesale only" are hoping that the retail coin shops do a "bang-up" business and need more coins for their customers. Otherwise, the wholesale business tends to fall off compared to the other months of the year. No matter how busy it is now until the middle of December, the last two weeks of the year are usually very inactive. Those are the two weeks when dealers spend valuable time with their families, while planning their strategies for the next year.

The most active gift items are usually Proof and Mint Sets and silver bars. Not far behind are the modern sets of Lincoln Cents, Jefferson Nickels, Roosevelt Dimes, Washington Quarters, Franklin and Kennedy Halves, and Ike and Anthony Dollars. Most dealers try to build their inventory of these items so they don't miss out on ready sales. Wholesale dealers try to keep an inventory list of where they can find these items on a moment's notice when the dealers they supply run short.

Some of the more elaborate gift items are the earlier, more expensive BU sets, such as, the short set of Buffalo Nickels (1934-38), Mercury Dimes (1934-45, or 1941-45), and Walking Liberty Halves (1934-47, or 41-47). For the person who likes to give gold coins as gifts, prices can range anywhere from $35 on up to $500 and higher.

Several dealers who have full line coin shops, have informed us that they are attempting to entice new customers with very inexpensive starter sets; Lincoln Cents are always popular with kids and are a good way to get them started in numismatics. Along with these starter sets, interesting books cannot be overlooked. These can educate newcomers about coins as well as history, and improve reading skills.

A few dealers have informed us that they are receiving numerous calls about gold coins. It seems that they have heard that gold is down and now is a good time to buy. Customers may be thinking that buying gold coins as presents satisfies two ends: The need for a present and the idea that the value of the gift could actually increase in the future. That doesn't happen with most other presents.

As dealers concentrate on holiday sales, it is appropriate to suspect that Bidding activity of rare coins tends to lessen slightly. This does not mean that prices will naturally fall, but competition may not be as strong as usual. If rare coin want lists from clients are of less importance to them, then dealers will obviously not need to increase their inventories. Some issues may become a little stagnant; however, this may be good for those customers who feel they get better deals when the market slows.

This Week's Market

CENTS THRU HALVES: The BU roll chart continues to be a very active area of the market Most of the dealers we monitor for this segment of the numismatic marketplace have retail businesses. This is the time of the year when these shops gear up for holiday sales The modern rolls from which sets are assembled are very popular as gifts. Most of the modern sets are reasonably priced and can be used as a starting point to interest beginners. Lincoln Cents and Franklin Halves are very active; the other denominations are nearly as active.

MERCURY DIMES: The Mercury Dime chart contains solid Bidding support for the majority of issues in MS64FB & 65FB. The issues prior to 1934 are the most sought after The non FB Dimes are also wanted, but some issues require discounts in order to entice buyers.

WALKING LIBERTY HALVES: There is no letup in Bidding activity for Walkers. Early issues continue to outpace the rest of the series. Mintmarked issues remain easier to sell than the "Philly" issues.

DOLLARS: As these last few weeks have revealed, common Morgan and Peace Dollars (in Mint State grades) continue to get just a little cheaper. As they fall in price, their downside risk is lessened. They become more of an opportunity, and several dealers have implied that they are about ready to start putting them away at these prices. The better-date issues are still on want lists and buyers will pay strong prices for coins that meet their grading criteria.

PROOF SETS AND MINT SETS: This past week has not been quite as strong as the previous several months for Proof and Mint Sets. This does not mean that they are faltering; the buyers have just slowed down their advancing Bids. Most of the previous buyers are still in need of many of the same issues, but they will only pay the current levels.

COMMEMORATIVES: The MS60 to MS65 columns of Silver Commems are receiving some fairly solid support at current levels. In many cases, specially where the spreads are very negligible from the low grade to the high grade, dealers will pay Bid for any and all of the common issues. Prices appear to be very attractive at today's Bids. The MS66 column still depicts weakness and discounting of various issues. Gold Commems remain very weak as current support levels are well behind the reported Bids. However, we are not seeing a continuous stream of discounts; yet, the more persistent sellers try to move selected issues.

TYPE: Except for a few selected issues, the Type market continues to be very popular at listed Bid levels. Most dealers are looking for specific issues and will take several if they are free of problems.

GOLD: The downward trend in U.S. Gold continues as more dealers discount selected issues from their inventories. Despite the fact that Gold bullion increased this past week, most dealers still have little confidence in the short-term market. The dealers we have spoken with recently, have voiced the opinion that a wait-and-see posture is the best approach at this time.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls command premiums. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices. "gem full steps" rolls (when available) bring higher prices. In the Mercury series, "gem full bands" rolls are worth more than listed prices, particularly the pre-1941 issues. When rolling your own, roll in "gem" quality. Wrong-format prices (not rolled in original bank wrappers) (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

*Please Note: This page alternates weekly with Page 3B which contains Modern Commemoratives and Modern Eagles (Gold and Silver).

BALTIMORE SHOW PROVES EDUCATIONAL

COINS FROM THE FINAL ELIASBERG SALE PRIVATELY VIEWED

The Market in Depth

After a snow-flurry plagued set-up day, the Baltimore Coin Show gathered steam (business and weather "warmed up") Friday and Saturday. The public arrived and filled the room as the dealers who cater to retail clients enjoyed steady business. No, it probably was not as much business as they would have liked, but it never is. Wholesale business began very slowly, but picked up and by Saturday afternoon many dealers realized that the show was much better than they had anticipated.

The dealers that worked the room were expressing satisfaction with the results. The major hindrance to doing business now is the fact that we are nearing the end of the year. Most dealers do not need to add to inventory so they are only looking to fill want list items. The drawback here is that most want lists look somewhat identical. Therefore, the highest buyer fills his needs while others keep looking. Dealers quickly realized that they had to discount excess inventory if they wanted to move it for cash. Many dealers did just that. A survey of several dealers revealed that they were trying to increase their cash positions in anticipation of the FUN Show in January.

The promoters of this vastly improving convention deserve kudos. Not that they won't suffer some growing pains, but they make a concerted effort to attract a large crowd of collectors through a myriad of advertising programs. They also raise money for Children's Hospital by charging dealers without bourse tables an early entry fee. It was announced that they raised at least $2,000 for this charity. Also, they gave away free coins and PNG pennyboards to kids who attended the show. The coins were donated by dealers attending the show. This is an important step in educating prospective future collectors. It is hoped that dealers were able to do some business with the parents for all the show's efforts.

Bowers and Merena conducted the Norweb Collection Sale, which was comprised of Canadian coins. It sure looks as though the Canadian market is healthy as a 1921 Half, in MS67, brought $90,200; this coin is known as the "King of Canadian coins". There was a tremendous amount of bidding on this coin as there was on many others.

This weekend in Baltimore afforded us the luxury of viewing some of the coins from the final sale of the Eliasberg Collection, which will be auctioned in April by Bowers and Merena. Wow, the expression "holding history in your hand" was never more appropriate. The 1804 Dollar is just a fabulous specimen. The 1893S Morgan looks as if it was just picked up from the Mint in San Francisco. We will mention some of the other rarities in the weeks ahead.

This Week's Market

MERCURY DIMES: There are a few changes in the Mercury Dime chart this week. Most of the buyers at the Baltimore Show were willing to pay the posted Bids for coins they need. However, Full-Band issues were the most sought after and sellers were nary to be found.

WALKING LIBERTY HALVES: High grade, early dated Walkers were also on many want lists. This area just seems to get better as the supplies get thinner. Whenever a rare issue comes onto the market, one of the many collectors just tends to outbid all other onlookers.

DOLLARS: This must be the most interesting area of the entire market. If you want common date Dollars in MS63, 64, or 65, you can certainly find them at attractive levels. However, if you are looking for any of the rarer issues, you might as well take a number and stand in line. There is a long list of collectors who need just about any and all of the better dates in every grade from MS60 to 66 and even 67 if it has been graded.

PROOF SETS AND MINT SETS: These two charts are quite steady as marketmakers remain poised for the holiday season. The same buyers are still in the hunt for more of the same issues. They are, however, trying to hold the line on prices at this time.

COMMEMORATIVES: The Silver Commem chart looks pretty uninteresting this week as we monitored very few changes. The MS66 column continues to exhibit less than adequate support even if there is an absence of minus signs. Gold Commems seem to be very soft in Mint State grades, especially the MS64s. Major players in the Modern Commem market continue to trade coins at current levels.

TYPE: We saw very few Type coins trade hands at discounted levels if they had eye-appeal. Sellers are reluctant to let loose of "nice" coins when they know that the FUN Show will probably bring out higher buyers.

GOLD: The U.S. Gold market continues to be plagued by discounted sales of the more readily available issues. Ten Indians have fallen the most in the last few weeks. While the MS60-64 grades are shown with minus signs this week, they did seem to stabilize at the Baltimore Show. It looks as if some major marketmakers are beginning to support this area.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen** or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally, they do not represent what any particular dealer might offer to buy or sell that coin Bids reported consider activity in the certified **sight unseen** market which already include consideration of certified coin costs. Bids for a **sight seen** coin may be higher or lower than for a **sight unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be increasingly influenced by these actions if they are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to get a substantial discount from these prices when purchasing coins in a retail transaction you may also commission a Dealer for your purchases

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter.*

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3A which contains BU and Proof Rolls.

Improved NGC services mean savings for you!

Numismatic Guaranty Corporation has renamed three of its popular services, but that's not all. CERTIFIED PREGRADE has become CROSSOVER, and this service is now free! You pay only for the submission Tier. RESUBMISSION EVALUATION has been simplified to REGRADE, and coins may now be submitted for this service under any Tier, saving you time. UNCERTIFIED PREGRADE is now called PRESCREEN, and it's free for submissions of 300 or more coins of the same denomination and type.

BUYERS MAY FIND BARGAINS IN THIS MARKET

MODERN ISSUES, PROOF AND MINT SETS ATTRACT BUYERS

The Market in Depth

This is the time of the year that Bidding activity tends to slow down considerably. If you have a choice, now is a good time to be a buyer rather a seller. Bargains can be had from dealers who are trying to reduce their inventories. Sellers, on the other hand, find it somewhat difficult to move certain types of material at current levels. Most dealers do not need to add more common coins to their inventory. One should not be concerned by this lack of activity or the apparent low-ball Bids that you see in the marketplace. This is usually temporary; the bargain-hunting will probably last through the end of the year. The dealers who are hurt most by this market, are the ones who need to sell coins in order to raise cash. If you are in a position to wait out the market, January should restore some consistency.

Of course, there are some pockets of weakness to be aware of, but that is typical of the market in general. The most common issues, especially Dollars and Walkers, seem to be searching for new lows. Again, the weakness is for **common, generic issues.** The better dates in both of these series are quite healthy. In fact, in any series, the better dates or collector coins are in demand. As long as you can't locate the coins you are seeking in every dealers' inventory, there is a good chance that area of the market is stable.

Stack's is conducting a public auction on December 5th, in New York. This sale is primarily U.S. Gold and is part of a three session sale including Ancient and Foreign coins. There are numerous lots that should be attractive to a multitude of buyers. Included are the following:

DENOMINATION	GRADE
1861 $1 Gold	Ch. Proof
1804 $2 ½ Gold 14 Star	AU
1829 $2 ½ Gold	BU
1894 $2 ½ Gold	Gem BU
1908 $2 ½ Indian Gold	Gem Proof
1860 $3 Gold	Ch. BU
1885 $3 Gold	Ch. Proof
1888 $3 Gold	Gem BU
1795 $5 Gold	BU
1834 $5 Gold Cap Bust	BU
1798/7 $10 Gold 9 Stars	AU
1895S $10 Gold	Ch. BU
1908 $10 Indian Gold	Gem BU
1861S $20 Gold	BU
1907 High Relief W/E	BU
1914 $20 Saint	Gem BU
1930S $20 Saint	Ch. BU
1932 $20 Saint	Ch. BU

This Week's Market

CENTS THRU HALVES: The BU roll market is very active as many dealers put together sets for the holidays. Some of the late-date issues, many of which have small premiums over face value, are difficult to locate. Therefore, they are very much in demand and some dealers will pay in excess of present Bids. Kennedy Halves are especially strong lately.

MERCURY DIMES: Full-Band Mercury Dimes remain very active at present Bids. The low-pop issues are extremely difficult to locate and will command well in excess of current Ask prices.

WALKING LIBERTY HALVES: While the common Walkers (MS63-65) continue to receive less than Bid support, the early issues are still being sought. Very seldom do any of the Mintmarked issues come along that several buyers don't stand in line to buy.

DOLLARS: As we pointed out in the Market in Depth, better-date Dollars, Morgan and Peace, are very popular at present Bids. When a coin appears for sale that rests on various want lists, the seller can contact any number of buyers to consummate a sale.

PROOF SETS AND MINT SETS: Proof and Mint Sets are a very strong part of the coin market at this time. A very high percentage of all the issues are in demand at posted Bid levels. There are several buyers, who cumulatively, would buy just about all the Sets we have listed on Page 7. You will find a few declines, however, there are ready buyers for most of these Sets at the new levels.

COMMEMORATIVES: The Silver Commem market appears to be just a little more steady this week. Several dealers have mentioned lately, that they think this area is just "too darn cheap". The support that we have monitored recently is generally within 5% of listed Bids. Even Gold Commems seem to be easier to sell at these levels. A few declines appear on the chart, but most issues are steady.

TYPE: For the most part, the Type charts are quite stable this week. We are not seeing much discounting for quality coins. The only area where discounted coins seem to be occasionally available is the Nickel coinage in less than Gem quality. Otherwise, buyers are persistent in their pursuit of quality coins at appropriate Bid levels.

GOLD: The weakness in Gold bullion has had a tremendous influence on circulated U.S. Gold coins. The majority of issues from VF thru AU are lower this week as sellers discount various portions of their inventories. The chart for Mint State Gold contains several minus signs, however, there are several issues that seem to be more stable this week. The issues that declined this week, appear fairly steady at the new levels.

Coins certified by other services *may* trade at a discount, understand each services standards before using the Greysheet grades as a pricing guide

A weekly comparison of certified coin Bid levels relative to CDN sight-seen Bid levels (as 100%) sampled from 10 U.S. coin series (2 grades each; avg. is for the 20 ratios). All %'s relative to CDN as 100%. Data from latest issue of CDN, Monthly Supplement, & Certified Coin Dealer Newsletter (sight-unseen Bids). Refer to CCDN for specific certified Bid levels. ANACS Bids & green label PCI Bids are for slabbed coins only. INS bids are for blue certs. Use this Indicator to survey the entire market, not just for a single issue; apply these ratios to CDN Bid to obtain a trading range for comparisons. For more details on the Indicator and a complete listing of coins, refer to the July 1988 Monthly Supplement

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily indicate the level at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight unseen** market which already include consideration of certification costs. Bids for a **sight seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by those which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above. And when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem full steps" rolls when available bring higher prices. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices. "gem full steps" rolls when available bring higher prices. In the Mercury series, gem, full bands" rolls are worth more than listed prices—particularly the pre-1963 issues. Washington rolls—dull or "pot-mgotten" bring lower prices. Gem and better Washington (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3B which contains Modern Commemoratives and Modern Eagles (Gold and Silver).

NUMISMATIC HISTORY IS WHAT YOU MAKE IT

PROOF AND MINT SETS SHOW EXTENSIVE GAINS FOR 1996

The Market in Depth

When we sat down with Richard Eliasberg recently to examine some of the great numismatic rarities to be auctioned (Auctions by Bowers & Merena, Inc.) in April, next year, there is one noticeable characteristic that is common to the majority of the coins. Whether they are the finest known, or nearly so, they are generally free of surface abrasions of any kind. Many have caliginously toned over the years, but the absence of marks prompts the observer to think of these coins as the picture of perfection. It does not really matter how the certification services wind up grading these coins, because the ultimate owner of each specimen will know exactly what he/she has in their collection. It is a part of history that has helped shape today's coin market. Every numismatist is looking for the ultimate coin to place in their collection. If it isn't the best, it will be the best that they can afford. As they form their collection over the years, they too, may make history someday.

PROOF SETS	JAN. 5 BID	DEC. 6 BID	INCREASE
1995S	$12.40	$19.00	53.23%

1975	$ 4.40	$ 5.25	19.32%

This past year we have seen hundreds of issues all through numismatics post sizable gains. One area that tends to be overlooked by the masses, is modern sets—Proof and Mint. Since the beginning of the year, there have been well over twenty-five Proof Sets that have shown increases; also, at least twenty Mint Sets have climbed to higher Bids. The chart above shows the most active issues since January 5, 1996, compared to today's Bids. Along with this comparison, we have listed the percentage increase.

This Week's Market

MERCURY DIMES: It's the same story week after week. Mercury Dimes are steady, especially in the Full-Band grades of MS64 &65. We do not see much in the way of new material being offered; when we do see coins for sale at reasonable prices, they are usually dated after 1931.

WALKING LIBERTY HALVES: Support continues for the Walkers in MS64 and higher; although, several buyers have changed their focus to just the early issues. This means that the issues after 1934 are not as strongly sought as they had been in the recent past. They will still trade, however, it may require some discounting to consummate a sale.

DOLLARS: While perusing the Dollar charts, you will notice numerous changes in the market. Some of the more common issues are down slightly, while the better dates have increased. Where changes have not occurred, the better and rare date buyers are still making a bold statement with strong Bids. The '95 Morgan Dollar continues to climb under persistent buying pressure.

PROOF SETS AND MINT SETS: This is currently one of the more active areas of the market. There are certainly enough buyers to maintain current Bid levels even with some of the dealers that offer mixed lots at discounts. Where some declines have occurred, there are buyers at the new levels. After recent weakness, the 1961-64 Proof Sets are managing to find solid support at today's Bids.

COMMEMORATIVES: There are quite a few changes in the Silver Commem chart this week as sellers respond to a quiet market with some discounts. The amount of the decline is very moderate in most cases as the sellers are just trying to create some activity. Gold Commems are pretty much the same story although there are a couple of plus signs. Modern Commems are very well supported for the majority of the chart. Several dealers continue to make markets for just about all issues. A look at the chart will reveal a few declines as the Gold issues respond to a lowering of bullion.

TYPE: It sure looks as if collector coins are trying to maintain a steady market. Several dealers are looking for just about anything that is not common in Proof and Mint State. In circulated Type, there are any number of buyers for lower grade coins; some buyers are looking for large quantities.

GOLD: This week finds the U.S. Gold chart, for circulated coins, similar to the last several weeks. You will still see some declines in the Mint State issues, however, many of these changes are a result of earlier weakness. Several issues are steady with various dealers supporting the grades that they need.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight-seen** coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buy orders which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3A which contains BU and Proof Rolls.

Improved NGC services mean savings for you!

Numismatic Guaranty Corporation has renamed three of its popular services, but that's not all. CERTIFIED PREGRADE has become CROSSOVER, and this service is now free! You pay only for the submission Tier. RESUBMISSION EVALUATION has been simplified to REGRADE, and coins may now be submitted for this service under any Tier, saving you time. UNCERTIFIED PREGRADE is now called PRESCREEN, and it's free for submissions of 300 or more coins of the same denomination and type.

NUMISMATIC OPPORTUNITIES LOOM ON THE HORIZON
AUCTIONS CONTINUE TO ATTRACT RARITIES

The Market in Depth

With the stock market beginning to show some signs of price resistance, it may be time to seek other alternatives for discretionary income. Dealers have been saying this for a very long time, and I suppose they have to be right at some point. Most dealers are in the coin business because they truly believe that there will be another formidable coin market sometime in the near future. In the meantime, many prices are resting at near ten-year lows. Much of the risk has been squeezed out of most of the very common issues; even many of the better issues have fallen to their lowest levels in a decade. For those dealers who have customers who like to compare charts, now is probably a good time to show them some of those potentially outstanding areas.

Some charts might depict what would appear to be a skier swishing down a slope. Some charts would look like one tumbling down a steeper slope. With some studious research, potential buyers should be capable of identifying some very interesting markets that could be very lucrative in the next run-up. Researching previous "highs" and comparing them to today's prices can be very revealing as they learn what is the best value for the money. In-depth research is bound to reveal numerous low-risk, high-potential numismatic issues.

DENOMINATION	GRADE
1910 $5 Indian	Roman Proof
1911 $10 Indian	Matte Proof
1914 $10 Indian	Matte Proof
1908 $20 Saint	Matte Proof
1909 $20 Saint	Roman Proof
1911 $20 Saint	Matte Proof
1914 $20 Saint	Matte Proof

The upcoming Sotheby's Auction in New York, will highlight many numismatic rarities. The Sam and Rie Bloomfield Foundation Collection Sale is scheduled to take place on December 16th. The "Best of Sale" will surely go to the 1907 $20 Ultra High Relief. It has been described as one of the finest known and few would argue the point. Sotheby's estimates that it may sell between $800,000 and $1.2 million. Viewing this coin alone would be worth the cost of the trip to New York. Other highlights include a Humbert 1852 $50 in BU and an 1855 Wass, Molitor and Co., $50, also in BU. Both of these are in exceptional condition. To obtain a catalogue and prices realized, please contact Sotheby's, in New York. Further highlights are listed above:

This Week's Market

CENTS THRU HALVES: The BU roll market is highly motivated at this time. Several dealers continually run their buy messages over the teletype systems trying to purchase various issues for retail sales. Much of this activity is based on holiday sales and may not be everlasting, but the monitoring of potential sales is very encouraging.

MERCURY DIMES: The Mercury Dime chart seems a little lacklustre as buyers maintain current levels, for most of the Full-Band issues, but do not increase their buy prices. This is the same format that they have followed nearly the whole year.

WALKING LIBERTY HALVES: Little has changed in the Walker chart this week as most buyers of early issues continue to support previous Bids. There are a few declines in the later issues as buyers have lowered their Bids and a few issues have been discounted.

DOLLARS: Except for just a very few changes, this week's Dollar charts are relatively steady. Dealers with active want lists are still looking for better and rare dates; they may not advertise it for the next three weeks, but potential sellers know who the "big" buyers are. If popular issues come up for sale in the next few weeks, you can bet that they will find new homes very quickly if the price matches the grade.

PROOF SETS AND MINT SETS: Like BU rolls, Proof and Mint Sets are quite active as numerous dealers try to fill the needs of their customers. We see buyers attempting to buy large quantities of many sets as their needs arise. Also, from time-to-time, we see sellers with miscellaneous lots at discounted prices. These are usually absorbed rather quickly unless they have problems or original holder (envelope) deficiencies.

COMMEMORATIVES: Very few changes can be found in the Silver Commem chart as most buyers are not yet willing to advance current Bids. On the other hand, we are not seeing a lot of obvious discounting either. The Gold Commem chart appears rather stable this week.

TYPE: Bids in the Type charts remain very steady as buyers support their previous levels. The rest of the year may be somewhat less active as many dealers wind down and close-out their year-end books. For now, the typical marketmakers are still active and supportive of current Bids.

GOLD: The U.S. Gold chart is mixed as some dealers are supporting several of the Mint State issues. Most of the declines are in the circulated issues, however, even these coins seem to be trading if price corresponds to actual grade. The Mint State columns contain some increases as new demand is being registered.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified) but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the level at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market which already include consideration of certification costs. Bids for a **sight seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The **CDN** may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by them when they are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, dated prior to [illegible] the Jefferson series, some of the rolls in the late 30's and to be dark—these bring lower prices. Full steps [illegible] bands" rolls are worth more than listed prices—particularly the pre-1941 [illegible]. Well-struck—full or part—other [illegible] purchasing. [illegible]

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3B which contains Modern Commemoratives and Modern Eagles (Gold and Silver).

"COIN DEALERS ARE NO BETTER THAN PAWNBROKERS"

When we first saw this statement on one of the teletype systems, we thought it was a little offensive; in fact, it was very offensive. Some more reading confirmed our worst fears. Others were highly offended also. Pawnbrokers were very upset that they were being compared to coin dealers. You see, pawnbrokers are required to have licenses in order to operate their businesses. They are also required to be a member of their trade organization, which they all support with annual dues. That puts them way ahead of the coin industry; an industry that has not as yet demonstrated a willingness to support an organization to lead us into the 21st century.

If all coin dealers got together and became organized, just like a real industry, we could probably get some respect from the outside world. We need a fully supported trade organization to carry the ball for us. The only real problem we have is that it takes many years to be taken seriously as a viable entity by government. As a group, we have chosen to bury our heads in the sand and hope beyond hope that government leaves us alone. Dream on. As you can see from all news reports, from states all over the country, the government wants their share of your business. Guess what? They are going to get it, one way or another.

We currently have an organization that has done a very good job for the entire industry over the last five years. It is called ICTA..

Industry Council for Tangible Assets. Now many of you have had your heads in the sand for so long that you have no idea what ICTA has done for you lately. Judging by what we have read over the teletype systems lately, many of you think that ICTA is for special interest. You are right, it is. It is for the special interest of all coin dealers; not the 400 current members—all 10,000 coin dealers. Why do you think all of the major coin dealers are members of ICTA? Because they have basic survival instincts for business.

If you think ICTA had been run poorly many years ago by previous administrations, then join the club. However, it now enjoys an excellent reputation while enduring a lack of support by the majority. Further, ICTA has been run on a shoestring for the last several years by a non-

paid Board of Directors, and two staff members (who are paid most of the time—usually not on time) who see to it that the coin industry benefits as much as possible. Without them, each and every one of you would be fending for yourself, at the mercy of government, lawyers, and especially the IRS. It would be apropos to conclude that many of you would have been driven out of business by now because of extremely high and excessive expenses just trying to defend your business.

One staunch supporter of ICTA wrote, "If you are not part of the solution, then you must be part of the problem." Why do you continue to let the members of ICTA stand up for you and speak for you? This is tantamount to being on welfare and accepting coin bureaucracy handouts. This seems to be a direct conflict of most coin dealer politics. You are willing to accept what ICTA does for you as a free-loader of the coin industry.

What does the CDN get out of your joining ICTA? We feel that a stronger coin industry, that is organized and has a fully supported trade organization behind it, is good for the entire industry. Our total business philosophy can be summed up in one statement: What is good for the coin industry, is good for us. The CDN Family of Publications.

If this offends you, do not blame ICTA. You should be supporting an organization that works for your betterment.

YES, I UNDERSTAND IT'S TIME I JOINED ICTA.

NEXT STOP—FUN SHOW
LAST ISSUE OF 1996; HAPPY HOLIDAYS

The Market in Depth

As moderate as this year is finishing for many dealers, most can hardly wait until 1996 ends and 1997 begins. While we have reported on various issues of late that have shown good results for the year, there are also a multitude of areas that have slipped throughout the year. The areas of weakness are ones that should be examined for future growth. These are the oncs that could show promise as much of the downside risk has been climinated. The one drawback in determining and then locating coins in these specific areas is that once you are able to purchase them, you must then entice new buyers for them. This is where your expertise comes into play as you show your customers the upside potential.

The new year will bring with it a whole new series of auctions. One of the first will be conducted at the FUN Show; Auctions by Bowers and Merena, Inc., will hold the Rarities Sale. It is limited to only 500 lots, but what an array of "Rarities". The cover of the catalogue says it all. The Roman Numeral, 1907 Saint-Gaudens, Ultra High Relief $20 Gold is a very special highlight. It has been graded Proof67 by PCGS; this coin is from the Norweb Collection. The buyer of this coin will surely appreciate its long history. Please contact Bowers and Merena, Inc., for a copy of this memorable catalogue. Other highlights are listed here:

This is our last issue for 1996. The CDN Family of Publications would like to wish all of our subscribers a joyous and happy holiday season. Thank you for being a part of our family and we hope that you will have a successful 1997. Our next issue will be dated January 3, 1997.

This Week's Market

MERCURY DIMES: The Mercury Dime chart appears generally quiet, although the usual buyers are still hunting for FB specimens in MS64 & 65.

WALKING LIBERTY HALVES: The Walker series has not changed much as the year comes to a close. Early issues, especially in high grade, continue to be supported by dealers with want lists. This seems to be an ongoing proposition as 1997 approaches.

DOLLARS: We continue to receive reports of better date Dollars changing hands at premiums of Bid. While we will typically raise Bids for these issues when we receive this information, we tend to be conservative unless there is an actual posted Bid in some media. We still see some Bidding weakness in the common Morgan issues, especially MS64 & 65.

PROOF SETS AND MINT SETS: Proof and Mint Sets are still highly active at present levels, however, there are a very few dealers trying to move very large lots of some issues at previous Bid levels. While many buyers are in need of 10-20 sets of the very same dates, they do not want to stock 100 of any one issue just because it is being discounted. Some of these issues need to be watched over when the holiday sales are at an end.

COMMEMORATIVES: The overall Commem market is relatively quiet as most dealers are satisfied with current Bid levels. There is little discounting of late in Silver Commems, except for just a few in MS66. Gold Commems reveal a few more lowered Bids as dealers adjust their buys and sells. Modern Commems are very active, but many of the Gold issues are slightly lower. This is a result of the weakness in Gold bullion with adjustments being made for the common individual gold issues.

TYPE: The Type market is holding fairly steady as many dealers prepare for the FUN Show. Buyers are reluctant to raise Bids for coins they need until they see what may be available in January when thousands of dealers come together. On the other hand, sellers are willing to wait and see what the buyers will do at the FUN Show.

GOLD: While you will find a few declines in the Mint State Gold chart this week, the number of minuses seems to be headed in the right direction. Also, there appears to be a reluctance, on the part of the dealers, to discount most issues any further than they have already done. At this point, most dealers are willing to wait till the FUN Show to see how the market progresses.

The weekly **COIN DEALER newsletter** (the *Greysheet*) reports the national Dealer to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily represent the level at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight seen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE. The prices in this newsletter are from Dealer to Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to *the Certified Coin Dealer newsletter*.

GREYSHEET GRADING STANDARDS

Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.

MS60 – Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.

MS63 – Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.

MS64 – Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.

MS65 – Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. **Must** have eye-appeal.

MS67 – Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

Deep Mirror Prooflike: Will exhibit the same characteristics as the corresponding Mint State Morgan, but with the additional feature of deep mirror surfaces on both sides.

***Please Note:** This page alternates weekly with Page 3A which contains BU and Proof Rolls.

Improved NGC services mean savings for you!

Numismatic Guaranty Corporation has renamed three of its popular services, but that's not all. CERTIFIED PREGRADE has become CROSSOVER, and this service is now free! You pay only for the submission Tier. RESUBMISSION EVALUATION has been simplified to REGRADE, and coins may now be submitted for this service under any Tier, saving you time. UNCERTIFIED PREGRADE is now called PRESCREEN, and it's free for submissions of 300 or more coins of the same denomination and type.
